

Graduate Seminar in Computer Science

Prerequisites: Permission of instructor and supervisor.

Web-page: <http://web.unbc.ca/~casper/Semesters/2023-05F/704.php>

Instructor: David Casperson; T&L 10-2050; ☎ 960-6672; ✉ David.Casperson@unbc.ca .

Admin Asst: Meagan Jago; ☎ 960-5153 ✉ Meagan.Jago@unbc.ca

Times: every Tuesday from 16:00 to 17:20.

Office Hours: To be scheduled.

Books: References for T_EX/L^AT_EX/Beamer to be supplied.

pass/fail course. Students who attend all seminars and engage in presentations and evaluations will pass.

Homework: 100%

Grading Scheme: This course is a

Learning Outcomes: A student who successfully completes this course should:

- be prepared to defend their MSc thesis (once written!)
- be able to participate effectively in an academic conference in Computer Science
- have the skills to write and present a short technical talk

Course Content: The calendar says:

The course comprises weekly seminar sessions. Students will investigate and present ideas and results pertaining to current computer science research. The offerings may include presentations of current literature, research methodology, and topics related to students' own research or project work. Students will participate in discussions and critique of the work presented. MSc students are required to attend and participate in all seminar sessions to obtain credit for the course. This is a PASS/FAIL course. (All MSc students must register in a seminar course twice during their program of studies. It is expected that all MSc students will attend the seminar each semester they are available.)
